24 CHASE ELLIOTT

HENDRICK MOTORSPORTS

DATE OF BIRTH: NOV 28, 1995 ROOKIE YEAR: 2016

Chase Elliott is the newest Sunoco Rookie of the Year in the Monster Energy NASCAR Cup Series. Elliott qualified for the Chase and finished 10th in points in 2016 after taking over the No. 24 at Hendrick Motorsports for Jeff Gordon. Elliott is a two-time Most Popular Driver winner in the XFINITY Series, where he won Sunoco Rookie of the Year and the championship in 2014. He also has five career wins in that series and two wins in the NASCAR Camping World Truck Series.

Additional NASCAR Digital Media

Functionality Requirements

Rich Media Requirements

Rich Media Functionality

Animation

- All animation time is 15sec with max of 3 loops.

Frame Rate

- Frame rate is 24 FPS.

Close Button

- A mandatory "CLOSE X" button must be prominent and obvious in the top right corner for floating, out-of-banner, billboard, pushdown and expandable banner ads initiated by a user's click.
- Close button font size must be 11 pixels, bold text, and 4 pixel padding around the text.
- The ad, including the CLOSE button, may not cover core page navigation or other ads.

Rich Media Requirements

Expandable / Video Ads

- No expansion and no audio/video permitted on 300x250 Video Sync Units.
- Expansion must user initiated. In some cases auto-expansion will be allowed with a frequency cap.
- Where applicable, the "ON/OFF", "STOP/PLAY", and "CLOSE" button must be prominent and located in the upper right corner.
- Must be 3rd Party served.
- Where applicable, the method of expansion and un-expansion must be the same. (i.e., click-to-initiate/click-to-close OR roll over-to-initiate/roll off-to-close). Our sites strongly recommend and prefer "click-to-initiate/click-to-close", however, will accept "roll over-to-initiate/roll off-to-close" on pages other than the site home page pending site approval.
 - b. 728x90 Downward expanding to 728x270
 - c. 300x250 Leftward expanding to 500x250

Hover Unit Specs

- The Hover ad width & height is defined as “full browser width by 120 pixels tall.” This is 1000x120. This is the non-expanded version.
- If you choose to add in expansion functionality, the recommended pixel size is 1000x600 (in the expanded state). Expansion must be “click to expand” and “click to close”
- The leave behind unit (which is the button in the lower left corner upon full collapse) is 120x90
- Maximum initial file size: 60k Max , Polite File Size: 160k max
- FPS: 24 FPS
- Ad unit dissolves after 8 seconds of non-interaction
- Include prominent close button with "CLOSE X" in clear readable text.
- Keep the NASCAR.COM logo and navigation at the top intact and visible.
- Audio: User-initiated
- Video: Host or user-initiated. Must include play, pause and stop controls
- Frequency cap: One auto-initiated takeover effect per user per 24 hours.
- Final creative subject to NDM review and approval

Audio/Video Requirements – Display Media

All Audio must be user initiated by click and have a clear and visible mute button.

- Looping is not permitted.
- No host-initiated audio is permitted.
- All in-banner video can auto play for 30 seconds, Audio must be user initiated by click.
- Audio must be user-initiated by clicking within the banner and contain clearly visible "mute" and "stop" functionality.
- Video File Size is a maximum of 2.5 MB
- End frame will have a call to action and a replay video button.
